**Purpose:** The Memorial Foundation's mission is to improve the quality of life for people through support to nonprofit organizations. The Memorial Foundation responds to diverse community needs, assisting agencies that focus on: health, human & social services, education, senior citizens, youth and children, community services, and substance abuse programs.

**Restrictions:** Applicant organization must be exempt from federal taxation under Section 501(c)(3) of the Internal Revenue Code and not be a private foundation as described in Section 509(a) in order to be eligible. The Foundation prefers to make grants that will have a significant and lasting impact on a group as well as its community. The Memorial Foundation does NOT fund grants for the following: individuals; newsletters, magazines; churches and religious organizations for projects that primarily benefit their own members (exception: church-based programs with broad community support and separate financial statements); tickets to charitable events or dinners; disease-specific organizations seeking support for national research projects and programs; sponsor special events, productions, telethons, performances, or similar fundraising and advertising activities (exceptions may be given for approved educational videos); legislative lobbying or other political purposes; retire accumulated debt; bricks and mortar capital projects for colleges, universities, and private/public school education; computers or other technologies for educational facilities. Exceptions may be made within limits of Staff approvals; multi-year grants for operating funds.

**Geographic Focus:** The geographic area served by Nashville Memorial Hospital. Requests for support outside this area are not considered.

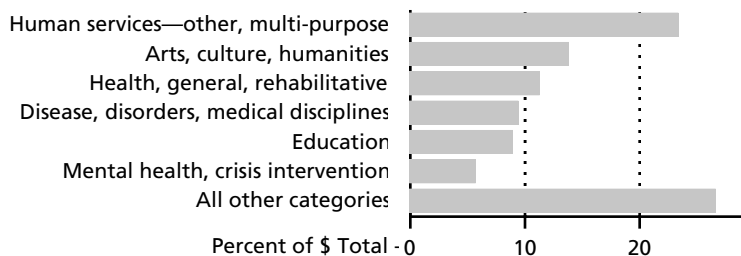

**Deadlines:** See web site.

**Published Info:**

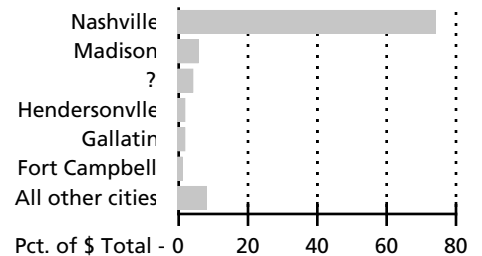

**Other Info:** Requests for capital projects and general operating support are eligible for consideration. An organization should be able to demonstrate a broad base of financial support for a proposed grant from its own community and constituency prior to asking for support from the Foundation. Requests for start-up projects may be considered for new initiatives that address important, unmet community needs and that demonstrate a potential for ongoing operational support from other sources. All organizations requesting grants are subject to a review process that includes an initial interview with staff, submission of an application, a possible site visit, and approval by The Memorial Foundation's Board of Directors.
