

The Fundraiser's Best Friend!

The California Foundation DataBook.

An astoundingly detailed resource for California grantseekers! All new research on California's top 220 foundations, with more than *\$19 billion* in combined assets and making more than *\$783 million* in grants, mostly to California organizations! 27,674 grants made by the top 220 foundations are profiled, including detailed information on each grant recipient organization.

The Foundation DataBook CD-ROM.

The *California Foundation DataBook* CD-ROM will be available soon. The Foundation DataBook CD-ROM is a fast, user friendly, and extremely powerful electronic version of the DataBook that easily installs onto Windows and Macintosh based computers. With its comprehensive searchable database and three custom contact-management fields for your notes, it's truly the ultimate fund raising tool! Please visit **www.FoundationDataBook.com** for more information, including screen-shots of the CD-ROM.
